5/8" (19/32") Plywood not Included

Elkhart, IN

1515-PLY Clip Features

Split Studs

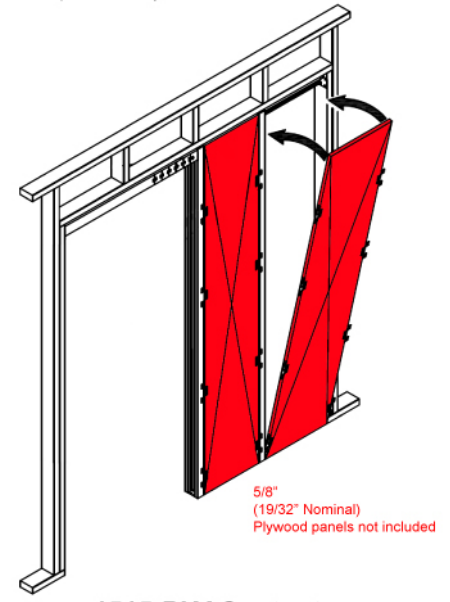

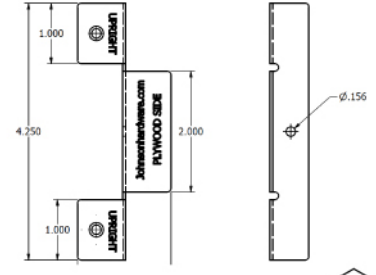

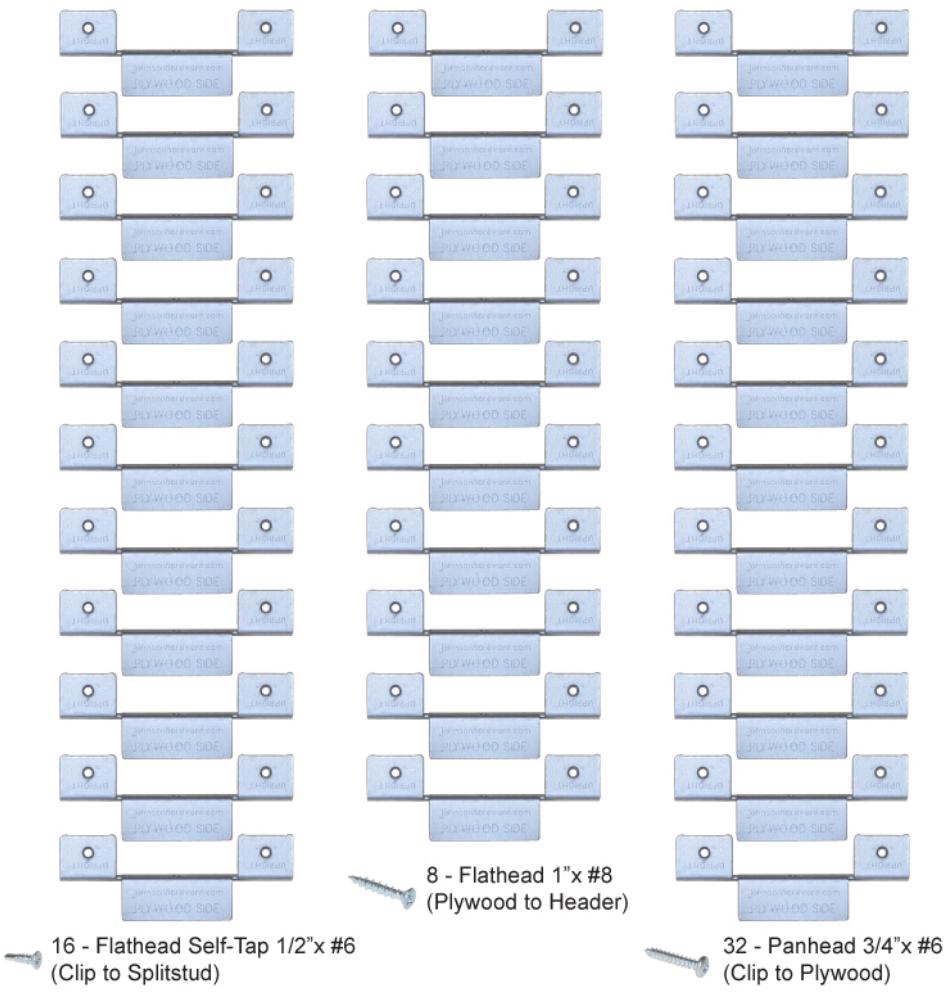

Rough Stud

- The brackets allow you to insert 5/8" plywood sheets flush between the steel wrapped studs.
- Adds rigidity to the wall when compared to using the pocket door studs alone.
- Provides a nice, solid backing for mounting towels racks, cabinets, tile applications, etc.
- Makes screwing in plywood even easier.

See online at: <https://johnsonhardware.com/1515-ply-pocket-door-frame-plywood-clip-set>
