2060 Commercial Grade Pocket Door Frame for 1 1/8" to 2 1/4" Thick Doors to 400 lbs. (2" x 6" Stud Wall)

ORDERING DATA

For 2 x 6 Construction. Heavy duty pocket door frame featuring heavy gauge all steel split studs for maximum wall rigidity. New all steel split stud design makes a pocket door wall sheeted with standard wall board material comparable in stiffness to standard non pocket door stud walls and eliminates warpage. The 2060 is designed like the rest of our pocket door frames so it can be used for single or converging pocket door applications. The 2060 is packaged for easy transport and fast installation in standard 2 X 6 timber or steel framed stud walls. Versatile frames can be adapted for use in thicker walls, block walls and cut down to accept any smaller door size. Now comes with the 2041 hidden guide set.

1060 Soft Close Assembly

ORDERING DATA

Item No.	Lbs./Case Qty
1060	1/1
1060SOFT	6.7/5

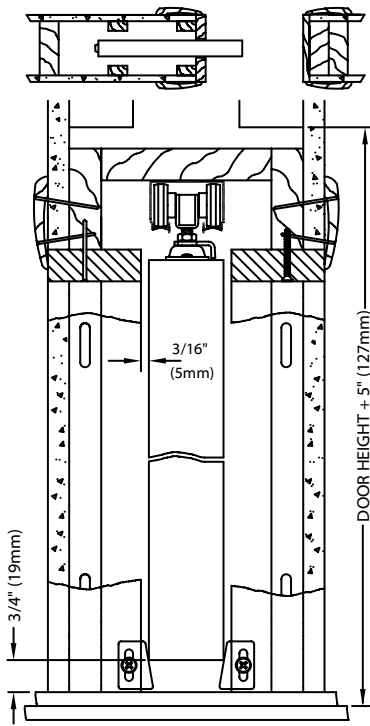

SOFT-Close/Open

- Make your sliding doors Soft Close quietly and securely.
- Doors up to 200 lbs(91kg) are smoothly braked and pulled into the closed position.
- Use with new or existing Johnson Hardware Sliding and Pocket Door Hardware. Any sliding door track profile that uses the 1120/1125 hanger can utilize the 1060 Soft Close. Works with the following Hardware Series: 138F, 134F, 100PD, 100SD, 2610F, 1500, 1560, 1562, 2710
- Holds door securely in place, closed or open.
- Prevents door slamming or pinched fingers between door and jamb.
- Use 1 1060SOFT Set per door for "soft-close" OR "soft-open" when you are converting a setup previously using our 1120 standard bearing hangers. Use 1 1060 when converting a setup previously using our 1125 ball-bearing hangers. Minimum 24" (609mm) wide doors.
- Use 2 1060's per door for "soft-close" AND "soft-open". Pocket Doors Minimum 28" (711mm) wide doors. Bypass and Wall-Mount Minimum 24" (609mm) wide doors.

1560 Commercial Grade Pocket Door Frame for 1" to 3" Thick Doors to 200 lbs. (2" x 6" Stud Wall)

ORDERING DATA

For 2 x 6 Construction. Removable aluminum track with convex rails, rust resistant all steel split studs, jump proof three wheel (1" dia.) ball bearing hangers, self-adjusting floor anchors, headers marked to cut to smaller door sizes.

ORDERING DATA

1562

SOFT-Close/Open
Compatible

For 2 x 6 Construction. The 1562 Series Bypass Pocket Door Frame is designed to carry 2 bypassing doors up to 200 lbs. each in a standard 2 x 6 timber or steel framed stud wall. The 1562 allows architects and designers to specify large room dividing openings with minimum wall usage. The 1562 Frame Kit is factory configured to accept many standard door sizes and packaged for easy transport and fast installation in either bypass pocket door or converging bypass pocket door applications. This frame utilizes the 100PD Hardware Series and no bottom track is needed.

1510/1511

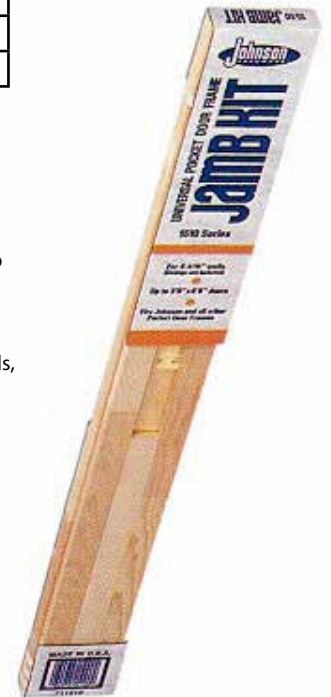

Item No.	Max Door Size	LBS/Case
15103068	3'0" x 6'8"	20/3
15113068	3'0" x 6'8"	20/3

A fast, convenient method of finishing a Pocket Door Installation. Just cut to length and install. No ripping of special thickness stock. Presanded so finishing is a snap.

Package includes 5 boards. Two split header boards, two split jamb boards, and a strike jamb board. (Since a wide variety of casings are available, they are not included)

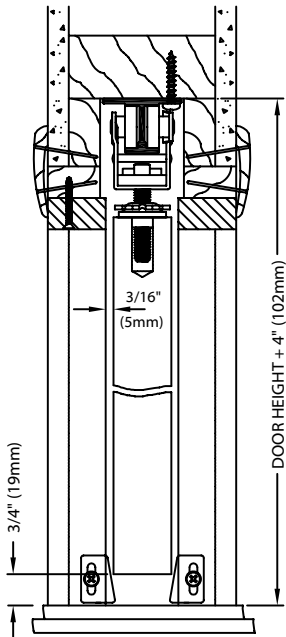

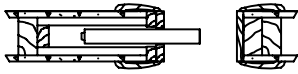

Jamb can be cut down for smaller sized doors.

Cannot be used with the 2000 Series Frame..

200BP

An extra heavy duty bypass commercial pocket door hardware set. This set can carry heavy duty solid core doors up to 400 lbs each. No bottom track required. It utilizes trackless guide posts that allow the doors to guide each other. The tracks are precision extruded heavy gauge aluminum I-beam track that will not allow the wheels to "jump" the track. It utilizes fully adjustable/removable door hangers for precision fit and finish. The wheels themselves have smooth rolling nylon exteriors with individually caged ball-bearings around the axle. This is quite simply our best line of hardware that we make.

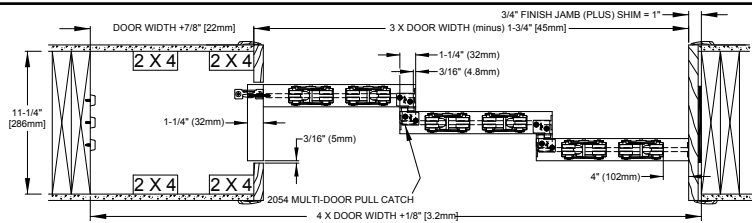

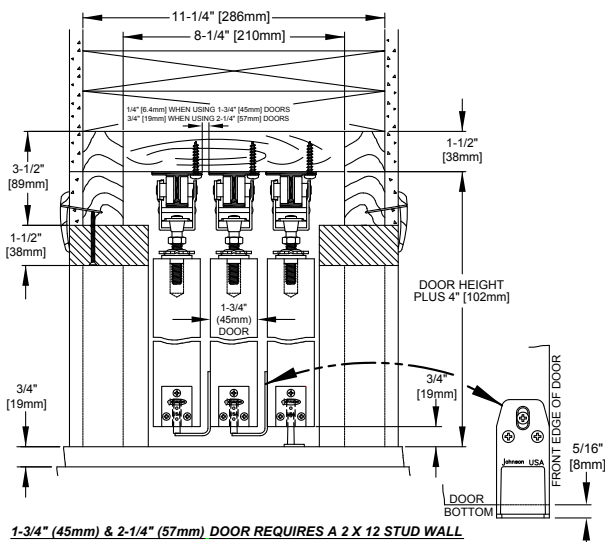

For converging doors, 2 doors going right and 2 doors going left, meeting in the middle, just order two hardware sets. One for each side.

Pocket Door Essentials 2041PLBG Hidden Guide

1515 Plywood Reinforcement Clips

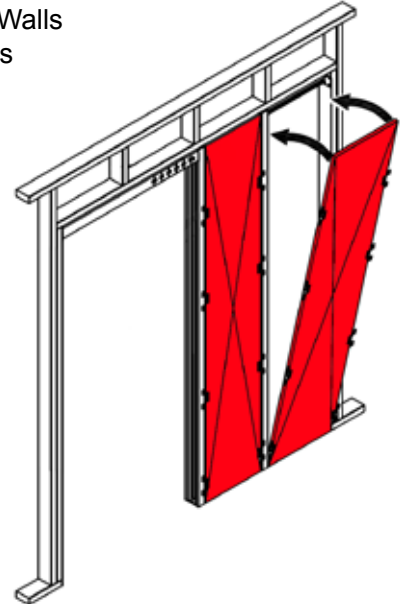

Item No.	Lbs./Case Qty
2041PLBG	1.7/10
1515-PLY	18/6

1515-PLY Pocket Door Frame Plywood Clip Set

- Add Structure to **ANY** Johnson Pocket Door Frame
- Make Stronger Pocket Walls
- Supports Heavy Objects
 - Tile
 - Cabinets
 - Towel Racks

The 2041 Hidden Pocket Door Guide Kit permits pocket door guiding without the use of standard 1550 visible pocket door guides. The heavy duty steel reinforced guide post is fastened to the center of the Split Stud Floor Plate just inside the pocket and rides inside a groove routed in the bottom edge of the door out of view for a clean look. 2 guide posts are included in the kit, one for sub floor and one for finished floor applications.

The 2041PLBG works with all Johnson Pocket Door Frames except 2710/2711.

The 1515 Clip Set is designed to add structure and increase strength of pocket door walls. 1515 clips attach 5/8" plywood panels to pocket frame structure increasing the rigidity of pocket walls when compared to a pocket wall without plywood reinforcement. Additionally, the plywood panels provide a solid surface for mounting towel racks, cabinetry etc. Plywood panels not included. Plywood panels installed flush with split studs. Drywall directly over plywood panels. The 1515-PLY now works with all Series of Johnson Hardware Pocket Door Frames

Panel Displays

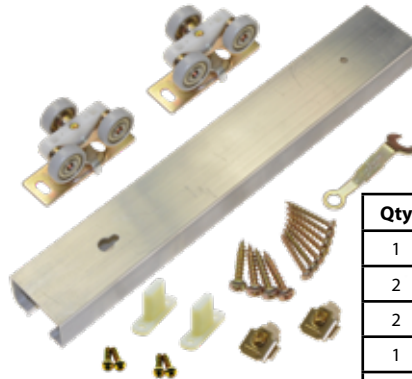

USING JOHNSON 100 SERIES TRACK AND HARDWARE

NO MORE WRESTLING WITH LOOSE PANELS OR DOORS!

Display your doors with easy-to-construct sliding "show walls". These displays take up less floor space than the old methods of stacking or leaning doors.

The **Door Panel Display** uses the same track and hanger system as the Johnson 1500 Pocket Door Frame and can handle 3'0" doors up to 200 lbs..

Valet Rod

Item No.	Lbs./Case
9500-096	32/20(Bulk Only)

A real clothing organizer. Hangers are separated eliminating "hanger overlap". Wardrobes stay neat and orderly. Clothing stays fresh and unwrinkled. Deep drawn hanger slot in the gold enameled steel Valet/rod will not scratch hangers, provide strength to rod as well as the shelf above. Available bulk only in 96" (2438mm) lengths. Can be easily cut for smaller shelves. Use short lengths near washers for drip dry or wrinkle free.

Multiple-Door Sliding Door Hardware

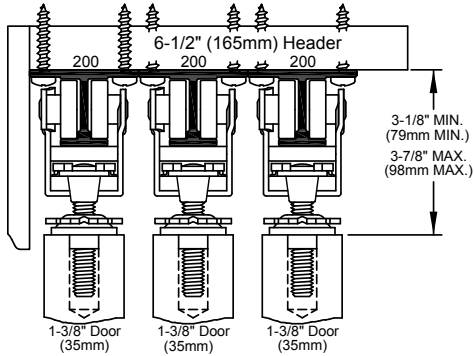

200MD, 100MD, 111MD

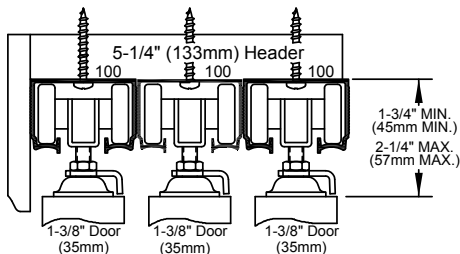

Shown below are typical 3 track layouts for 1-3/8" doors. Other door thicknesses may be used. For thicker doors tracks must be spaced further apart and a wider header may be necessary. Also, more than 3 tracks may be used by extending the header and using other track combinations as required.

200MD Series-400 lbs. Doors

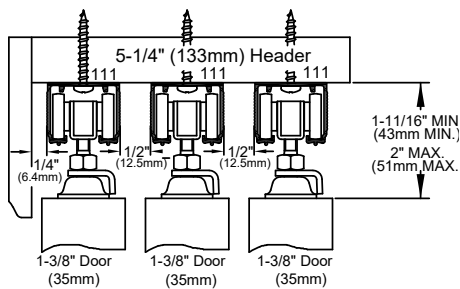

100MD Series-200 lbs. Doors

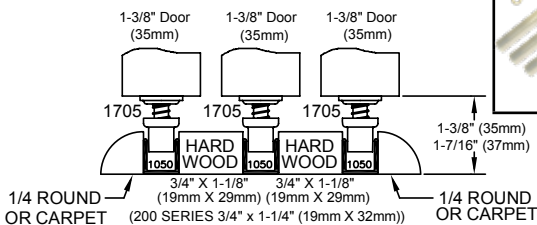

SOFT-Close/Open

Compatible

111MD Series-150 lbs. Doors

1050 Bottom Track- Included w/ all Sets

All nosing and hardware filler supplied by others. Surface mount shown/ Bottom channel may be recessed into floor. Spacing and dimensions will vary with other door thicknesses.

Tracks can be cut down for smaller openings.

6', 8', and 9' Sets Utilizing 200, 100, and 111 Hardware Sets.
