HEAVY DUTY POCKET  
DOOR FRAME**

*Now with Soft Close*

# POCKET DOOR HARDWARE

## 2060 SERIES

**For 1 1/8" to 2 1/4" thick doors up to 400 lbs.**

For use in 2x6 stud walls, this is a deluxe commercial grade pocket door frame. Utilizes all-steel, extra stiff studs to resist bending and warping. Heavy duty extruded aluminum I-beam track, four wheel ball bearing hangers with machine turned 1" wheels.

.125 6063T6 Aluminum track, 11-13 gauge steel parts

## 2000 SERIES

**For 1 1/8" to 1 3/4" thick doors up to 400 lbs.**

For use in 2x4 stud walls, this is a deluxe commercial grade pocket door frame. Utilizes all-steel, stiff studs to resist bending and warping. Heavy duty extruded aluminum I-beam track, four wheel ball bearing hangers with machine turned 1" wheels.

.125 6063T6 Aluminum track, 11-18 gauge steel parts

## 1560 SERIES

**For 1" to 3" thick doors up to 200 lbs.**

For use in 2x6 stud walls, this is a commercial grade pocket door frame. Utilizes a "jump proof" aluminum box track and all-steel, stiff studs to resist bending and warping. Trouble free tricycle hangers with machine turned 1" wheels on convex rails.

.055 6063T6 Aluminum track, 14-18 gauge steel parts

## 1500SC/HD SERIES

**For 1" to 1 3/4" thick doors up to 200 lbs.**

For use in 2x4 stud walls, this is a commercial grade pocket door frame. Utilizes a "jump proof" aluminum box track and all-steel, stiff studs to resist bending and warping. Trouble free tricycle hangers with machine turned 1" wheels on convex rails.

.055 6063T6 Aluminum track, 14-18 gauge steel parts

## 200PD SERIES

**For 1 1/8" or thicker doors up to 400 lbs.**

A deluxe commercial grade hardware set. Heavy duty extruded aluminum I-Beam track, four wheel ball bearing hangers with machine turned 1" wheels. The 200PD hardware set is used in the 2060 and 2000 Series pocket door frames.

## 100PD SERIES

**For 1" or thicker doors up to 200 lbs.**

Trouble free tricycle hangers with machine turned 1" wheels that ride on jump proof convex track rails. Ball bearing hangers available for doors up to 200 lbs. The 100PD hardware set is used in the 1560 and 1500 Series pocket door frames.

## POCKET DOOR HARDWARE

Heavy-Duty all steel studs, used in the 2060, have a comparable flex to a standard stud wall. No warping.

New All-Steel Uprights won't warp, are rigid and galvanized to resist rust.

Removable, heavy-gauge extruded aluminum box track. Has key-hole slots for removal.

Tricycle hangers with 1" machine-turned wheels for box track. Ball-bearing available for 200 lbs doors.

Soft-Close options now available for the all our Pocket Door Frames.

# WALL-MOUNTED DOOR HARDWARE

## 200WM SERIES

### For 1½" thick or thicker doors up to 400 lbs.

A commercial grade wall mounted sliding door hardware system designed to carry heavy doors. The 200WM features heavy-duty extruded aluminum I-beam track, track mounting brackets, and four wheel adjustable hangers with machine turned ball bearing wheels.

Anodized, aluminum snap on fascia available in Dark Bronze or Satin finish.

## 2610F SERIES

### For 1" to 1¾" thick doors up to 200 lbs.

The easy to install 2610F commercial grade wall mount sliding door hardware is designed to carry heavy doors up to 200 lbs. Precision extruded aluminum box track features a built in fascia that hides the sliding hardware from view. Strong tricycle hangers are adjustable and machine turned.

Anodized, aluminum finish available in Dark Bronze.

# SLIDING DOOR HARDWARE

## 200SD SERIES

### For 1½" thick or thicker doors up to 400 lbs.

A deluxe commercial grade sliding door hardware system designed to carry heavy doors. The 200SD features heavy-duty extruded aluminum I-beam track, heavy duty guides, and four wheel adjustable hangers with machine turned 1" ball bearing wheels.

Soft-Close options now available for the 100SD, 138F and 134F.

## 100SD SERIES

### For 1" or thicker doors up to 200 lbs.

Trouble free tricycle hangers with machine turned 1" wheels that ride on jump proof convex track rails. Ball bearing hangers included in the set for doors up to 200 lbs. Hangers are easily adjustable with included wrench.

Anodized, aluminum finish available in Dark Bronze for the 138F.

## 138F/134F SERIES

### For 1" or thicker doors up to 200 lbs.

Trouble free tricycle hangers with machine turned 1" wheels that ride on jump proof convex track rails. Ball bearing hangers available for doors up to 200 lbs. Precision extruded aluminum box track features a built in fascia that hides the sliding hardware from view.

## 111SD SERIES

### For ¾" or thicker doors up to 150 lbs.

Trouble free tricycle hangers with machine turned ¾" wheels that ride on jump proof convex track rails. Ball bearing hangers included in the set for doors up to 150 lbs. Hangers are easily adjustable with included wrench.

Side Mount Door Plates available for the 200SD, 100SD, 138F, 134F and 111SD

# FOLDING DOOR HARDWARE

## 200FD SERIES

**For 1 1/8" to 1 3/4" thick panels up to 125 lbs/each**  
A deluxe bifold hardware set for 12" to 48" panels up to 108" tall. Top hung, heavy duty I-beam track, four wheel (1" dia.) ball bearing hangers, heavy duty bottom pivot set.

.125 6063T6 Aluminum track, 11-13 gauge steel parts

## 100FD SERIES

**For 1" to 1 3/4" thick panels up to 75 lbs/each**  
An excellent bifold hardware set for 12"-24" panels up to 108" tall. Convex rail track, top hung, three wheel (1" dia.) ball bearing hangers, non-mortise lift off hinges.

.055 6063T6 Aluminum track, 14-16 gauge steel parts

## 111FD SERIES

**For 3/4" to 1 3/4" thick panels up to 50 lbs/each**  
A superior light commercial bifold hardware set for 12"-24" panels up to 108" tall. Convex rail track, top hung, three wheel (3/4" dia.) hangers, self locating, shock absorbing hinges.

.052 6063T6 Aluminum track, 14-16 gauge steel parts

Side Mount Door Plates available for the 200FD, 100FD and 111FD

# MULTIPLE DOOR HARDWARE

## 200MD SERIES

**For 1 1/8" or thicker doors up to 400 lbs/each**  
A deluxe, commercial Multi-Slide hardware set. Bottom track and guides used to allow full left to right operation. Top hung, heavy duty I-beam track, four wheel (1" dia.) ball bearing hangers.

.125 6063T6 Aluminum track, 11-13 gauge steel parts

## 100MD SERIES

**For 1" or thicker doors up to 200 lbs/each**  
A heavy duty commercial Multi-Slide hardware set. Bottom track and guides used to allow full left to right operation. Convex rail track, top hung, three wheel (1" dia.) ball bearing hangers.

.055 6063T6 Aluminum track, 14-16 gauge steel parts

## 111MD SERIES

**For 3/4" or thicker panels up to 150 lbs/each**  
A superior light commercial Multi-Slide hardware set. Bottom track and guides used to allow full left to right operation. Convex rail track, top hung, three wheel (3/4" dia.) hangers.

.052 6063T6 Aluminum track, 14-16 gauge steel parts

Standard Guide Track Installation

Side mount guide posts can be used to allow for a setup that does not require bottom guide tracks. Individual guide posts are used and travel inside a groove in the bottom of each door to make for a clean floor in the opening.
